8. Agricultural Land Uses:

For agricultural land uses in the CD5 Zone area, the Regulations Table for the A1 Zone, will apply.

9. Siting Regulations:

(a) Siting distances from Agricultural Land:

- i. As per the ALC resolution (#20/2008), a 5.0 m vegetative buffer will be required within the 15.0 m siting regulation adjacent to the A1 zoned portion of the parcel. A Vegetative Screening Plan, identifying plant types, setbacks, irrigation etc., must be submitted for the ALC's review and approval prior to installation.

- iii. The proposed buildings will further conform to the Stepped Setback for Taller Buildings regulations of Section 3.26 of Part 3 of this bylaw.

(b) Environmental Allowance:

- i. As per the attached Figure 2, a 3.0 m wide no build environmental allowance has been identified on the parcel for Anton Brook (Westbank Creek Tributary # 2), located on the southern parcel boundary. This allowance, combined with the 6.0 m siting regulation fronting Bering Road, is intended to provide the necessary separation to protect the environmental features of Anton Brook.

- ii. As per the Watercourse Evaluation prepared by Golder Associates (November 12, 2009), a 2:1 (gain:loss) compensation ratio will be required for any development scenario that results in a loss of aquatic habitat or adjacent riparian area associated with Anton Brook.
- iii. As per the City's Terms of Reference for Professional Reporting, if development should occur within these areas (only after it proves impossible or impractical to maintain the same level of ecological function) compensation will promote a no net loss to aquatic habitat.
- iv. An Aquatic Ecosystem Development Permit will be required prior to any site disturbance; the environmental setbacks and potential on-site compensation will be further defined at time of development permit; future development permit approval may potentially negate the need for the 3.0 m environmental allowance provision.
