
Highlights of the Regional Board meeting – May 30, 2022

Recycle BC curbside collection agreement

The Regional Board has deferred a decision on whether to contract with Recycle BC to provide curbside recycling services in the Central Okanagan East and Central Okanagan West electoral areas effective April 30, 2026. The Board will receive more information by the end of June considering any change for the curbside collection program. Each local government will consider whether it wishes to receive direct curbside recycling from Recycle BC.

North Westside RDCO water utilities

The Regional Board has deferred amendments to the 2022-2026 Financial Plan to fund the installation of manual transfer switch equipment for two RDCO water systems serving North Westside communities. It has asked staff to provide more information about this proposal. The switches would be required for quickly connecting to portable back-up generators when needed. Funds for the installation on the Killiney Beach and Westshore Estates water systems would be provided through the Community Works Fund portion of the Canada Community Building Fund.

Draft Poverty and Wellness Strategy

The Regional Board has received an update on the draft Central Okanagan Poverty and Wellness Strategy. It's been developed over the past year with extensive consultation and engagement of stakeholders and the public. Following a current round of public engagement and presentations to local governments, a final report will be prepared.

Central Okanagan Housing Strategy

The Regional Board has received an update on the draft recommendations for the Regional Housing Strategy. The goal of the strategy is to provide a regional approach to address the challenges around affordability and supply of rental housing and home ownership. Draft recommendations will be presented in June to local governments, and it's anticipated the final report will be considered by the Regional Board in late June.
