Hi Evan,

Thank you for sharing the update and for providing the letter regarding the proposed 0% Development Cost Charges (DCC) adjustment for 2026 in West Kelowna.

We appreciate the opportunity to review the information. Based on what has been shared, our group is supportive of the recommendation and appreciates the City's consideration in holding DCC rates steady at this time. Given the current economic environment and the challenges facing the development industry, this approach is welcomed and helps support continued investment and housing delivery in the community.

Thank you again for keeping us informed. Please feel free to reach out if any additional feedback would be helpful ahead of the Council presentation later this month.

Regards,

Andrea Cashol
