
Project 10.3 Obtain Drainage Easement – Bridgeview Road to Campbell Road

Proposed Works:	Establish a drainage easement or Right-of-Way from Bridgeview Road to Campbell Road.
Implementation:	Overland flow from the north end of Bridgeview Road near Essen Road travels overland across private property enroute to Campbell Road. It is not known if this flow route is within a protected drainage easement or Right-of-Way. This work is considered a Low priority, since the risk of flooding and/or property damage is considered low.
Consequences if not completed:	Without an established easement or Right-of-Way, the District will not have the authority to enter onto the property and to install, repair, maintain or replace the drainage works.
Priority:	3
Location:	

Project 10.4 Obtain Drainage Easement – Kelview Crescent to Campbell Road

Proposed Works: Establish a drainage easement or Right-of-Way from Kelview Crescent to Campbell Road.

Implementation: Overland flow from the east end of Kelview Crescent travels overland across private property enroute to Campbell Road. It is not known if this flow route is within a protected drainage easement or Right-of-Way. This work is considered a Low priority, since the risk of flooding and/or property damage is considered low.

Consequences if not completed: Without an established easement or Right-of-Way, the District will not have the authority to enter onto the property and to install, repair, maintain or replace the drainage works.

Priority: 3
